

UGVCL bagged SKOCH SILVER AWARD from the Skoch Group

Uttar Gujarat Power Company Limited has always been at the forefront for providing excellent service to its consumers. For its splendid performance and extraordinary service, company is very frequently honored by the Central Government, State Government & other eminent institutions of the country.

It is an immense pleasure to announce that Skoch Group, a famous & independent organization which confers honors to the organizations/ companies/ personals for their remarkable job in various fields by focusing on the challenges associated with socio-economic issues, conferred UGVCL with a 'SKOCH SILVER AWARD' for its magnificent performance in **"AT & C Losses And Power Reliability"** which has further enriched the glorious peak already achieved by the Company.

The following two projects of UGVCL were nominated for the Skoch award for this year.

1. AT&C Losses and Power Reliability through Feeder Bifurcation.
2. HT AMR (Automatic Meter Reading) analysis.

Upon nomination to the award, an on-line presentation was presented by Shri J. K. Darji, Add. Chief Engineer (Tech & Vig) & Shri A. N. Dewan, Deputy Engineer, Hi-Tech Lab, Sabaramati which was followed by the 'On Line Voting'. Finally, on 02-10-2020, both projects were selected by the Scotch Group for the

semi-finals of Skoch Award 2020 & eventually the project 'AT&C Losses and Power Reliability through Feeder Bifurcation' was selected for Skoch Silver Award.

While accepting the prestigious award, the Chief Engineer of the company, Shri P.B. Pandya expressed his delight and said that "under the guidance of Hon'ble MD Shri Mahesh Singh, IFS & due to the hard work of the employees and officers of the company, UGVCL qualified for this award".

The award is the testimonial to the commitment of UGVCL for safe, efficient and continuous power supply to its consumers. It also marks UGVCL's dedication towards Public Service.
